

Volume of species mobilized and mobilizable for log production

Evolution of forest concessions management in Central Africa

This bar chart illustrates the number of forest concessions in millions of hectares (Mha) across six Central African countries from 2016 to 2019. The data is categorized by concession status: allocated (grey), managed (brown), and certified (red). The Y-axis represents the number of concessions in Mha, ranging from 0 to 16. The X-axis lists the countries and the years. The chart shows a general trend of increasing allocated concessions over time, while managed and certified concessions remain relatively stable or show slight fluctuations.

Country	Year	allocated (Mha)	managed (Mha)	certified (Mha)
Cameroon	2016	6.5	4.5	3.5
	2017	7.5	4.5	3.5
